

# THE VITRA CAMPUS

## About

Since the 1980s, the Vitra company has erected buildings on its grounds in collaboration with some of the leading architects of the present day, including Zaha Hadid, Frank Gehry, Tadao Ando, SANAA, Álvaro Siza, Nicholas Grimshaw and Herzog & de Meuron. This has resulted in a unique architectural ensemble, about which the architectural critic Philip Johnson wrote: “Since the Weissenhofsiedlung in Stuttgart in 1927, there has not been a gathering in a single place of a group of buildings designed by the most distinguished architects in the Western world.”

With roughly 300 illustrations, Vitra Campus offers an overview of Vitra architecture, its daily use, the development of the Campus and biographies of the architects. It is ideally suited as a souvenir, as preparation for a visit, as a Campus guide, or simply as interesting reading on some of the most significant architects and buildings of our time
